EWSOLUTIONS WINS 'Best of Hinsdale' Award in the Data Management category

Hinsdale, IL June 1, 2017 -- Enterprise Warehousing Solutions (EWSolutions) has been selected for the 2017 'Best of Hinsdale' Award in the Data Management category for the 9th consecutive year.

Each year, the U.S. Commerce Association uses its "Best of Local Business" award program to recognize outstanding local businesses throughout the United States by identifying companies that have achieved exceptional success in their local community and business category. These local companies enhance the positive image of small business through service to their customers and community.

Various sources of information were gathered and analyzed to choose the winners in each category. The 2017 Award Program focuses on quality, not quantity. Winners are determined based on the information gathered both internally by the U.S. Commerce Award Program, and through data provided by third parties.

The Hinsdale Award Program is an annual awards program honoring the achievements and accomplishments of local businesses throughout the Hinsdale, IL area. Recognition is given to those companies that have shown the ability to use their best practices and implemented programs to generate competitive advantages and long-term value.

EWSolutions, based in Hinsdale, IL, was founded in 1997. They are a GSA Schedule strategic partner and systems integrator dedicated to providing Global 2000 companies, as well as state and federal government agencies best-in-class solutions focused on enterprise data management, data governance, managed metadata environment, advanced analytics, and business intelligence/data warehousing solutions.

"This award is an honor and a testament to our 19 years of successful client partner work," says David Marco, *EWSolutions'* president and founder. "As more and more businesses struggle with massive amounts of data that are not well managed, it's gratifying that the Best of Local Business award committee recognizes the impact *EWSolutions* has had, and continues to have, in its community and the larger world market."
