## **EWSOLUTIONS WINS 'Best of Chicago' Award in the Data Management Solutions category**

Hinsdale, IL January 31, 2020 -- Enterprise Warehousing Solutions (EWSolutions) has been selected for the 2019 'Best of Chicago' Award in the Data Management Solutions category for another year.

Each year, the U.S. Commerce Association uses its "Best of Business" award program to recognize outstanding local and regional businesses throughout the United States by identifying companies that have achieved exceptional success in their region and business category. These organizations enhance the positive image of small to medium business through service to their customers and area.

Various sources of information were gathered and analyzed to choose the winners in each category. The 2019 Award Program focuses on quality, not quantity. Winners are determined based on the information gathered both internally by the U.S. Commerce Award Program, and through data provided by third parties.

The "Best of Chicago" Award Program is an annual awards program honoring the achievements and accomplishments of organizations across the Chicagoland region. Recognition is given to those companies that have shown the ability to use their best practices and implemented programs to generate competitive advantages and long-term value.

*EWSolutions*, based in Hinsdale, IL, was founded in 1997. They are a GSA Schedule strategic partner and systems integrator dedicated to providing Global 2000 companies, as well as state and federal government agencies best-in-class solutions focused on enterprise data management, data governance, managed metadata environment, advanced analytics, and business intelligence/data warehousing solutions.

"Once again, we are honored to be awarded as a "Best of Chicago" in data management solutions, says David Marco, *EWSolutions'* president and founder. "Receiving this award again is a testament to our over 20 years of successful client partner work," "So many businesses struggle with massive amounts of data and do not manage that data well. It's important that businesses such as *EWSolutions* continue to support organizations with data management improvement capabilities and effective, practical solutions to data management challenges."
